### **DETAILED ACTION**

Claims 1-3, 21 and 22 are currently pending in the instant application, are allowable over the prior art of record and have been renumbered as claims 1-5.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Matthew Zisk on 28 March 2005.

The application has been amended as follows:

1. Amend claim 1 by deleting the term "general" from second line of the claim.
2. Amend claim 21 by deleting the semi-colon (;) at the end of the claim and inserting in its place a period (.).

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to a method of synthesizing the compounds of the formula (Ia) as found in claim 1. The novel and nonobvious aspect of this invention involves the compound (Ia). The closest prior art of record, Khristich et al., which discloses benzimidazolyl compounds fails to teach or suggest applicants instant process for preparing the products of the formula (Ia).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
